

## Extension Policy

Requests have been categorized into time frames to meet the following objectives:

1. Uphold R.A.C.'s mandate to certify highly-trained and professionally-developed candidates with the most up-to-date training.
2. Create a structured, equitable and standardized format.
3. Give Students clear guidelines for completing courses in a timely fashion while being fully informed of all expectations and outcomes.

### Extension Request Process

1. *All extension requests are to be submitted to the L.C.R.T. by phone or in writing.*
2. **Exams:**

An Extension may be requested if the exams and practicum cannot be completed as follows:

**Theoretical Exam**

Foot course: three months

**Practical Exam**

Foot course: one year

**All exams must be completed in the time frames indicated above *starting from the last day of class*. The last day of class plus the time frames will be the extended deadline date.**

## Theoretical Exams

The following criteria applies to any request for an extension to a theoretical exam deadline:

- Students must apply **no less than 7 days prior to their deadline**. Failure to apply on time will result in a late penalty fee of \$50.00 + GST/HST in addition to the extension fee.
- Extensions are granted from the current deadline. If a student applies late, they are not given extra time for the extension.
- **An extension of the deadline for the theoretical exam does not extend the deadline for the practical exam.**
